

SAFETY AND HEALTH POLICY

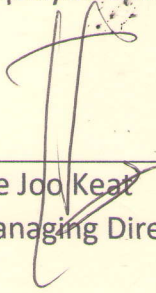

We are committed proactively comply with statutory, regulatory, and other requirements related to safety and health as pertinent to various processes to build safety and healthy working environment throughout company.

We strongly promote a safe, healthy working environment and well-being of our employees.

Every employee will contribute to the prevention of incidents by identifying, reporting, analyzing and controlling safety and health hazards. This will be supported by awareness campaigns and training programs adapted to their functions.

It will be our endeavor to prevent accidents and injuries with mission of zero accidents across the company by documenting all hazard risk.

In order to reach higher standard of safety and health, we will continually improve our employee attitude, processes and management system.
